## Summary

- Web developer specializing in JavaScript with a focus on React.js and Next.js. Expert in building responsive, high-performance applications and creating seamless user interfaces with modern state management tools.

## EXPERIENCE

- **Freelance React.js Developer (Aug 2022 - Present)**
  - Built and maintained high-performance web apps with React.js and Next.js, delivering scalable solutions aligned with client needs.
  - Enhanced performance by optimizing load times by 30% through techniques like code splitting and lazy loading.
- **Part-time Remote Developer (Jul 2023 – Sept 2023)**
  - Developed a front-end interface for a movie review app using Next.js and Tailwind CSS.
  - Improved user engagement by 15% through dynamic, interactive features and seamless API integrations

## PROJECTS

- **Khazanty ([www.khazantyksa.com](http://www.khazantyksa.com))**
  - Developed a responsive e-commerce website for a furniture store in Saudi Arabia using Next.js, Tailwind CSS and Email.js for users emails.
- **Hadahrah ([hadhara-mfv5.vercel.app](https://hadhara-mfv5.vercel.app))**
  - Developed "Hadahrah" a website about ancient Egyptian life and Pharaonic civilization using Next.js and Tailwind CSS. Designed for easy navigation and clear information presentation as a graduation project for the Faculty of Archaeology.

## EDUCATION

- **Bachelor's Degree in Computer Science and Information Technology – EELU (Sept 2019 – Jul 2023)**
- **Graduation Project:** Developed a chatbot using JavaScript, Node.js, and NLP, improving user interaction by reducing response time by 30%.
