Summary

- **Front-End Developer** skilled in building fast, responsive, and SEO-friendly apps using React and Next.js. Experienced in optimizing performance (boosted speed by 30%) and solving UI/UX issues. Write clean, maintainable code with a strong focus on user experience. Completed military service with full commitment and discipline.

EXPERIENCE

- **Front-end Developer at Inno Code (Jul 2025 – present)**
 - Built and optimized responsive web interfaces using Next.js and Tailwind CSS, ensuring smooth user experience.
 - Collaborated with back-end developers to integrate APIs and improve overall application performance.
- **Part-time Remote Developer (Jul 2023 – Sept 2023)**
 - Developed a front-end interface for a movie review app using Next.js and Tailwind CSS.
 - Improved user engagement by 15% through dynamic, interactive features and seamless API integrations

PROJECTS

- **Qutoof (<https://qutooforganic.com>)**
 - Built the front-end of an e-commerce website specialized in natural products (coffee, tea, honey) using Next.js, Tailwind CSS, ShadCN UI, and Framer Motion.
 - Designed a modern, responsive, and user-friendly interface to provide a smooth shopping experience with nationwide delivery support.
- **Hadahrah (<https://hadhara-mfv5.vercel.app>)**
 - Developed "Hadahrah" a website about ancient Egyptian life and Pharaonic civilization using Next.js and Tailwind CSS. Designed for easy navigation and clear information presentation as a graduation project for the Faculty of Archaeology.

EDUCATION & Certifications

- **Bachelor's Degree in Computer Science and Information Technology – EELU (Sept 2019 – Jul 2023)**
- **JavaScript Algorithms and Data Structures Masterclass – Udemy (March 2025)**
